

FEEDBACK REPORT

Student Feedback

There are 102 responses of the students' feedback forms obtained and their responses are as:

- They are having mix response for the content of the syllabus designed by the University for the B.Sc. And B.A. Courses.
- The response for syllabus covered in the College timely is very good.
- Size of the syllabus in terms of the Load on the student is moderate as per the responses of the student.
- The response for Content of the courses encourages extra learning/ self learning and how do you rate the domain used for designing/ performing the experiments in the laboratory is moderate.

Suggestions given by students are as follows:

- The drinking water facility should be provided to the students.
- The washroom should be improved.
- Mid semester transfer of the teaching faculty should be avoided.
- There should be a playground to utilize the sports facilities of the College.

FACULTY FEEDBACK:

The response of the faculty member worked in this College for last 5 years to the asked feedback is as:

- Most of the faculty members responded that the current syllabus moderately covers contemporary topics/global issues/ emerging national/ international trends and few responses stated it as highly covered the mentioned content.
- Their responses for the specified hours stated in the syllabus to complete the coverage of syllabus as per each course are sufficient.
- As per them there are Sufficient reference books and material are available for the topics mentioned in the syllabus.
- Their responses show that the learning objectives of the course are clear and appropriate.
- The balance between the theory and practices mentioned in the syllabus of courses is moderate.

- As per the obtained response the system followed by the University for the design and development of curriculum is moderately effective.
- The responses shows the relevance of the syllabus to the real life situations is moderate.

The teaching faculty members have given some suggestion pertaining to the syllabus and curriculum designing, the analysis of their suggestions are as:

- They suggested to Update the syllabus according to the changing situation, needs of the society and day to day life.
- They suggested that the recent scientific developments should also be incorporated into the syllabus.
- Skill subjects which are theoretical now should be practical in nature and should be designed as per need of market.
- Syllabus need frequent review to incorporate latest topics of subject to reproduce what they have learnt. For reproduction of knowledge learners need more time with varied subjects unlike post graduation where they have to carry only one subject. For improvement, this must be taken care of in relation to learners.
- One of the suggestions is that Frequent BOS meetings shall be appreciated.
- Need for introduction of additional certificate courses is also suggested.
